

# CWE Gas Analyzers

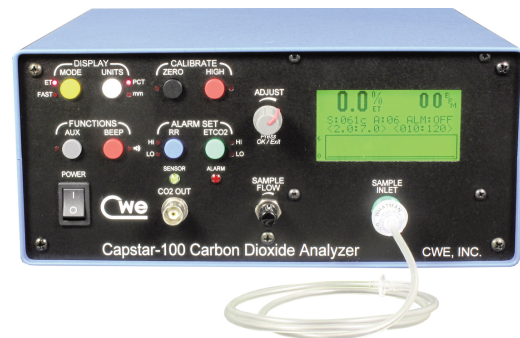

## microCapStar CO<sub>2</sub> Analyzer for mice

- Fast Response
- Accurate and stable monitoring
- Ultra-low sample flow rate
- Linear output voltage
- End-tidal peak or continuous readings
- Measures respiratory rate
- For mice, rats, and larger animals

## CapStar-100 CO<sub>2</sub> Analyzer for rats

- Fast Response
- 0.1% accuracy
- Small Sample Flow Rate
- Linear output voltage
- Excellent long-term stability
- For rats & larger animals

## GEMINI O<sub>2</sub> & CO<sub>2</sub> Respiratory Monitor

- Accurately measures breath-by-breath O<sub>2</sub> & CO<sub>2</sub> concentration
- Excellent long-term stability
- Linear output voltage
- Adjustable CO<sub>2</sub> & respiratory rate alarms
- For rats and larger animals

## OxyStar-100 Fast-Response Respiratory O<sub>2</sub> Monitor

- Fast-response, high accuracy O<sub>2</sub> analyzer
- Sample flow is adjustable over a 10 - 200ml/min range, making respiratory oxygen measurements possible on small as well as larger animals
- Applications: respiratory monitoring, hypoxic gas studies, general laboratory use

VENTILATE • ANESTHETIZE • ACQUIRE • MONITOR • MEASURE
