

# CWE Amplifiers

## BMA-200 AC/DC Bioamplifier

- For all extracellular recording
- Battery or AC operation
- Low noise, wide gain range
- Built in audio amp & speaker
- True DC response with offset
- Rugged laboratory or field amplifier
- Stimulus passing to electrodes
- Isolation head-stage (ISO-Z) available

## BMA-400 AC/DC Bioamplifier

- 4-channel AC/DC amplifier for all extracellular recording
- Low noise, wide gain range
- Multi-channel EEG, EMG, ECG recording
- True DC response with adjustable offset
- Stimulus passing to electrodes
- Isolation head-stage (ISO-Z) available

## ProAmp-8 Programmable Bioamplifier

- 8-channels + 2 audio channels
- Remote control via USB
- Pushbutton auto-zero function
- All digital controls and operation

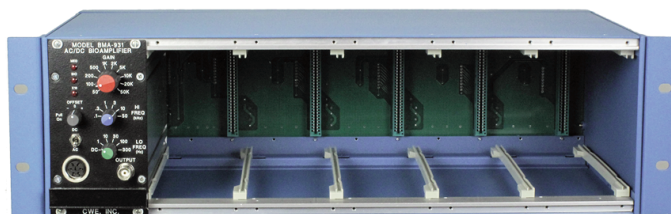

- Wide gain range, low-noise
- Full band-pass & notch filters
- Direct input or intelligent head stages

## SYSTEM 1000

### Customizable modular instrumentation system

Design your own system! Up to six function modules fit into each rack-mountable card-cage. Available modules include bioamplifiers, transducer amplifiers, cardiometers, counters, filters, and more. Shown here is the CC-1000 card-cage with one plug-in installed.

VENTILATE • ANESTHETIZE • ACQUIRE • MONITOR • MEASURE
