

CWE Direct Blood Pressure

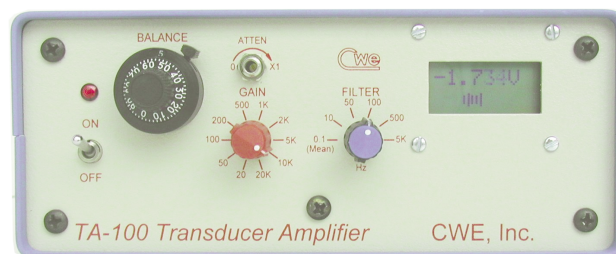

BP-100 Direct Blood Pressure Monitor

- Mean, systolic, diastolic, & HR measurements
- Fully automated w/ digital display of all measurements
- Standard system includes DTX-1 transducer & TC-GRA adapter cable
- Works with most standard BP transducers

TA-100 Single Channel Transducer Amplifier

- compact, stand-alone amplifier
- compatible transducers include blood or air pressure, strain gages, force transducer, and accelerometers
- wide gain range
- LCD display shows current measurement and fast-response bar-graph for easy visualization of a changing signal
- standard serial port allows remote data collection

BPM-832 Dual Channel Pressure Monitor

- wide gain range & excellent DC stability
- 2 independent amplifiers for use with bridge-type transducers including pressure, force, and acceleration
- high-gain preamplifier, low-pass filtering, adjustable DC balancing
- digital readout

VENTILATE • ANESTHETIZE • ACQUIRE • MONITOR • MEASURE
